

# 8 LEDs SYSTEM OPERATION

THE 4 LEDs ON THE RIGHT COMMUNICATE INFORMATION ON SECTORS TIMES

THE 4 LEDs ON THE LEFT COMMUNICATE INFORMATION ON LAPS TIMES

# 8 LEDs SYSTEM OPERATION

## ***DATA RECORDING***

- PURPLE LED on the left : Absolute best lap
- PURPLE LED on the right : Absolute best sector
- GREEN LED on the left : Pilot best lap
- GREEN LED on the right : Pilot best sector
- YELLOW LED on the left : Lap time between 0 and 1/10 sec compared to the pilot best lap
- YELLOW LED on the right : Sector time between 0 and 1/10 sec compared to the pilot best sector
- RED LED on the left : Lap time greater than 1/10 sec than the pilot best lap
- RED LED on the right : Sector time greater than 1/10 sec than the pilot best sector

## ***DATA ANALYSIS***

The left LEDs, for the analysis screens of the best lap, the theoretical time, the rolling lap and the race pace, classify the times from fastest to slowest:    ● 1<sup>o</sup>    ● 2<sup>o</sup>    ● 3<sup>o</sup>    ● 4<sup>o</sup>

The right LEDs, for the lap analysis screens, including the screens for analysing the best lap sectors, provide the same information explained in the 'Data recording' paragraph
