## Technical statement

Dear Kitatomi San,

We have received the pictures below with your email sent on Monday May 10<sup>th</sup>, 2021. On the pictures 1 and 2 it is evident that the exhaust is mounted using a flexible mount – see highlighted sections - which allows movement in multiple directions.

Picture 1

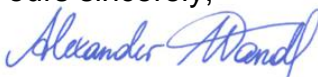

Picture 2

The type of installation seen on the pictures is causing an infringement with the Global Technical Regulations 2021 (**see paragraph below**). This installation is **illegal to use according to the regulations**.

### Section 6.17. 125 MICRO MAX

The Exhaust must be installed firmly to the chassis using a rigid mount/s. The Exhaust must be mounted to the rigid mount/s using 2 ROTAX silent blocks. (part 660920 and or 260657 allowed). The deflection of the 2 silent blocks is the only Exhaust movement allowed. The Exhaust must be mounted in a neutral position with no stress on the 2 silent blocks.

Yours sincerely,

i.A. Alexander Wandl / After Sales Service  
BRP-Rotax GmbH & Co KG
